

TOWN OF EAST HAMPTON

New York

F&A prepared a neighborhood plan for the North Main Street area of this upscale East End community. Analysis included an inventory of uses, parking and traffic conditions, streetscape and infrastructure improvements as well as extensive community visioning and an intensive 3-day design charrette. ***The North Main Street Corridor Study*** resulted in a plan to improve circulation along the commercial strip, as well as recommendations to amend zoning and suggest design guidelines to make the area more pedestrian friendly.
