

OSSINING UNION FREE SCHOOL DISTRICT

Ossining, New York

For this Westchester County school district encompassing students from the Village of Briarcliff Manor, Ossining Town and Village, and the Town of Yorktown, F&A prepared an environmental documentation, including wetlands, vegetation, wastewater, traffic, noise and visual impact analysis, as well as neighborhood and community character assessment, for renovations and additions to Ossining High School, Ann Dorner Middle School and Claremont Elementary School, in accordance with SEQRA requirements. The bond issue was approved and the improvements constructed.

OSSINING PUBLIC LIBRARY

Ossining, New York

F&A prepared environmental documentation under SEQRA, for the construction of a new 45,000 square foot library on a site adjacent to the existing library which it will replace. Issues addressed included traffic, stormwater management, site contamination, visual, historic/archaeological and community character impacts. The environmental review process was undertaken in anticipation of floating a \$15.8 million bond issue for the project. The bond issue passed and the project is under construction.
